

## FOUNDATION VALUES AND POLITICAL PROGRAMME KEYSTONES

### THERE IS A CHOICE, HERE AND NOW

Our choice is a liberal society freed from any pressure, threats, clientelism, and party blackmail. We do not want a society with destroyed values, with suspended institutions and system that is torn apart. We do not want a country occupied by criminal minds. HERE AND NOW we want to build a new reality, new values that will be the exact opposite of everything that is happening today in Macedonia.

Modernism instead of degradation, freedom instead of servitude, development instead of brain drainage. THERE I A CHICE, HERE AND NOW !

Only strong individuals, citizens with integrity and people with high degree of moral and ethical values can tackle the most important task in history of the Country. We are confident that the citizens of Macedonia do pose these qualities and the solidarity and the understanding of the basic human values is what everyone is looking for.
